Re: **(Applicant Name)**

I am writing on behalf of **(Applicant Name)** who is a part of our **(online/in-person)** Calvary Chapel Blythe congregation, regarding their religious conviction against forced vaccines. **(Applicant Name)** is a professed and practicing Evangelical Christian whose religious faith is the guiding force in both **(his/her)** beliefs and **(his/her)** behavior.

(Applicant Name) has expressed that, based on **(his/her)** review of CDC guidance and position statements and research of the issues related to the development and testing of the vaccines, and subsequent adverse reactions seen with many who have taken the vaccines, he believes that if **(he/she)** were to get the COVID vaccine, it would be a violation of **(his/her)** sincerely held religious belief, specifically that one's body is the temple of the Holy Spirit, and as such, **(he/she)** should introduce nothing into it that has the potential to cause damage (1 Cor. 3:16-17 and 2 Cor. 7:1).

Additionally, **(he/she)** strongly objects on a firm religious basis to the use of aborted fetal cells in any aspect of the development or testing within the production of the COVID vaccines, which has been readily acknowledged by the manufactures of the Vaccine. **(He/She)** believes that their participation in receiving the COVID vaccine would make **(him/her)** complicit in supporting abortion, which is in direct conflict with **(his/her)** religious convictions. Our church supports **(Applicant Name)** as **(he/she)** exercises the right to make the choice to reject the vaccine in accordance with **(his/her)** religious beliefs. Our church supports **(Applicant Name)**'s demand for a religious exemption.
